WHAT ARE WE?

MOONPULSE CHAIN IS THE SINGULAR UTILITY COIN THAT IS DRIVEN BY THE COMMUNITY TO ESTABLISH THE REAL PULSE OF FINANCIAL FREEDOM.

We started out as your typical meme coin and now we are roaring to show the decentralized space that we want more.

Moon PulseChain represents a unique utility coin shaped by the collaborative efforts of the community, serving as a genuine catalyst for financial freedom. Its inception was marked by a deliberate allocation of 86% of the total supply to a decentralized exchange (DEX), bolstered by liquidity provision.

In alignment with the commitment to fostering a community-driven token, the creator actively participated in acquiring their share through a conventional listing process, leaving only the remaining 160 million tokens under their custodianship.

With a foundation firmly established, the community is poised to propel Moon PulseChain towards unprecedented heights. The current infrastructure includes a robust staking mechanism, a diverse set of six operational games within a mini-casino, and an upcoming subscription-based forex trading bot currently undergoing four months of meticulous back testing.

For those seeking to actively shape the trajectory of financial markets and avoid being mere onlookers from afar, seizing the opportunity to acquire \$MOON is paramount. Join us in becoming the true pulse of financial freedom and chart a course beyond the confines of earthly limitations.

LUNAR APPLICATIONS

MOONSTAKING

Either in late March or early April, the team will launch Moon Staking, the erstwhile moneymaker for holders while the big shot lunar applications are still underway. The compensation plan will allow Moon Pulzers to select the lock in period packages that they are most comfortable with and they also have the option to unlock their stakes at any time albeit subject to a 23% Unlock fee.

MOONCASINO

This July we shall open our doors to our very own moon casino. we already have six simple yet generously configured games in tow namely:

Plinko, Baccarat, Keno, High-Low, Poker and Bingo Bash.

Baccarat is an exciting game of pure chance. It's an easy, slow-paced game that's great for new players. There's no strategy or skill needed. Plus, Baccarat offers some of the best odds to collect more tokens!

Keno is a lottery-like gambling game often played at modern casinos, and also offered as a game in some lotteries. Players wager by choosing numbers ranging from 1 through (usually) 80.

Drop a ball down the pin pyramid & aim for big wins with Plinko!

High or Low is a quick wagering game, where player is guessing what will be next card, higher or lower than rent one.

Caribbean stud poker is a casino table game with rules derived from five-card stud poker. However, Caribbean stud poker is played against the house rather than against other players.

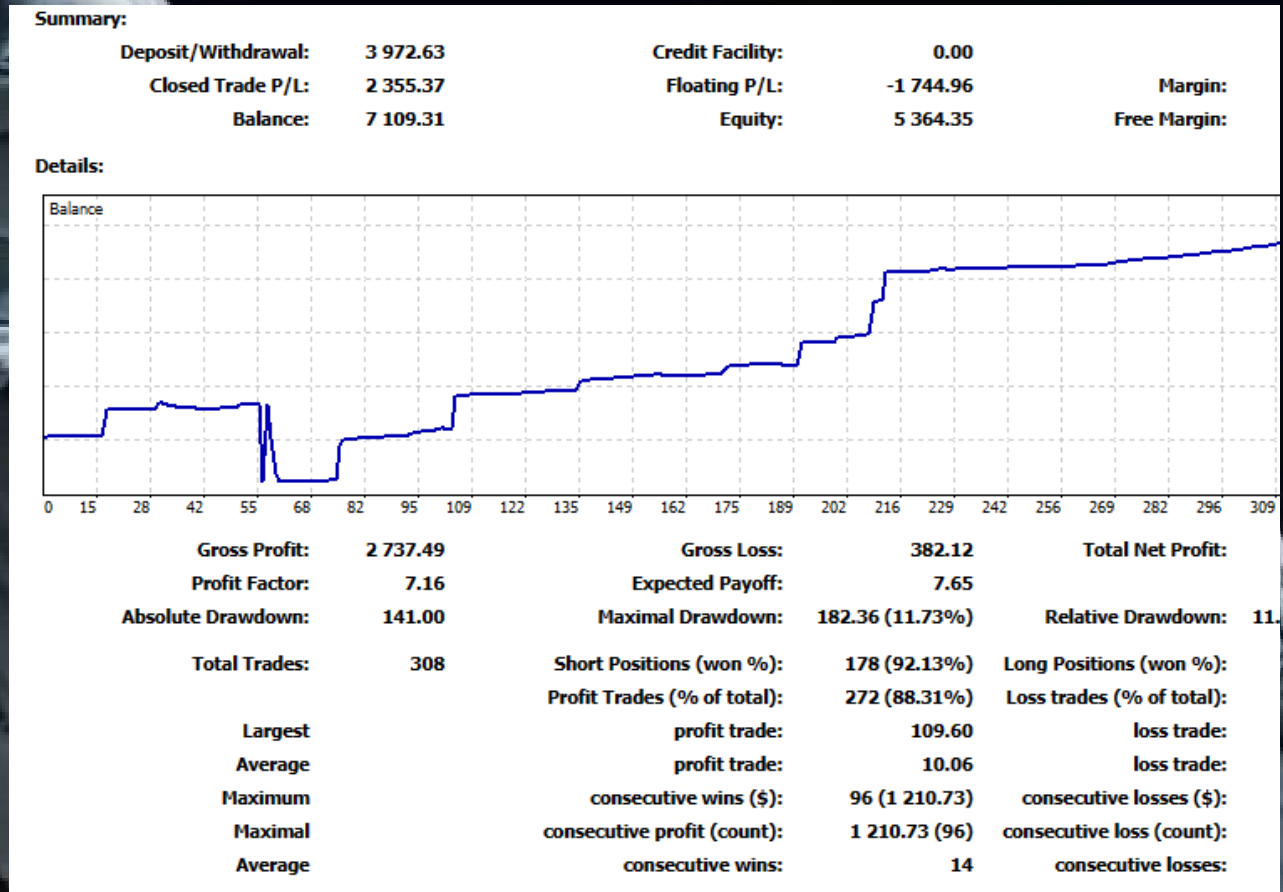

Bingo is a fun game of chance that anyone can play. The game is played on a scorecard that's made up of 25 squares — if you get 5 squares in a row, you win!

Game Cost: 5 Tokens
Bingo: 100 Tokens

LUNAR APPLICATIONS

MOON BOT TRADER

Holders of the Moon token also get first crack at our FOREX mt5 trading bot which shall be unveiled in the fourth quarter of this year. Back testing is ongoing and the early returns have been encouraging. The bot uses bollinger bands with a strict adherence to stop loss and tracking stop loss mechanism ensuring a net profit with minimal risks.

A person is walking away from the viewer on a narrow path that stretches into the distance. The path is flanked by dense, vibrant purple flowers. In the background, a large, bright full moon hangs in a dark, starry sky. The overall scene is illuminated with a soft purple and blue light, creating a dreamlike atmosphere.
